GIVING RESOURCES NEW LIFE®

Recycling puts your discarded materials back into the world.

- 1 Recycling Collection**
It starts with you tossing items like newspapers, boxes, bottles, and cans into your recycling bin. We pick these materials up from your home and take them to be processed at a recycling facility.
- 2 Recycling Facility**
At the recycling facility we sort and bale commodities like aluminum, cardboard, paper and more. These serve as the source material for recycled products and packaging.
- 3 Manufacturing**
Baled commodities are received by manufacturers as raw materials for making new goods.
- 4 New Products**
Completing the loop, the recyclables you placed into your bin are transformed into new products like boxes, bottles, cans, packaging and even fleece jackets!
